### **DETAILED ACTION**

1. Applicant's arguments, see amendment, filed 04/20/06, with respect to the rejection(s) of claim(s) 1 and 2 under 102(b) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Markowicz.

### ***Claim Rejections - 35 USC § 102 or 103***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Markowicz.

5. The Applicant is referred to the description of Markowicz in the first Office action.

The Applicant has argued that the only feature recited in the claims that Markowicz does not describe is awarding subordinate prizes having a pre-determined fixed monetary value.

The Examiner takes the position that Markowicz discloses that state lotteries area distinguishable from one another. Col. 2, lines 9-18 recites:

"A typical state system may have separate games in which 3, 4, or 6 player-selected numbers from 1 to 40 define an entry. The games may run daily or weekly. Variations in the particular numbers are possible and tend to distinguish one state's games from another's. Prizes in the games may range from fixed prizes of \$500.00 in a 3 digit selection game to several million dollars accumulated after several cycles of pari-mutuel wagering in a 6 choice/forty number game".

In view of such teaching, it would have been obvious to include state lotteries that awards subordinate prizes having a **pre-determined fixed monetary value** to Markowicz' network of individual state lotteries. This modification would have given other state lotteries the opportunity to participate in Markowicz' network of individual lotteries, thus increasing the size of Markowicz' jackpot prize level in the national lottery. Thereby attracting more players.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 3711

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
